## Editor's Note:

*"Don't watch the clock; do what it does. Keep going."*

A learner's efforts should always be directed towards keeping a pace that suits him the best and being consistent with learning. If we live by the above principle and work with consistency we are bound to be successful in our endeavors.

Similarly if we aspire to work towards our goals our plans should be directed to get us our objectives.

In this edition we've tried to get you the ideas that help you learn faster and improve your skill set round the clock to be the better version of yourself in coming days.

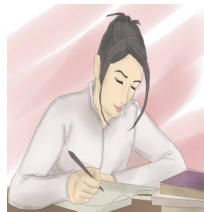

I wish you all great health and success and... "Happy learning."

Best Wishes,  
Sarah Javed

## Steps to learn English faster:

1. **Take a course:** English courses will help you learn the most important words and grammar and can help you make sure you're learning everything correctly. There are two main ways to take English language courses.

- Take an online course. You can take courses online. Some of these cost money and some are free. The ones that cost money may be better than the free ones but not all the time!
- Take a course in school. You can take a class from a local college or English language institute. These cost money, but the help from the teacher will be very important and will help you learn faster than trying to learn on your own.

2. **Write in a journal:** This will force you to practice your writing and vocabulary. It will also force you to practice making new sentences, instead of just repeating sentences you already know. You can keep a diary of your day. You should also keep a small journal where you write down new words when you hear or see them.

3 **Teach yourself:** Of course, you can teach yourself English too. The trick to teaching yourself English fast is to make it the most important thing to you. Spend all of your free time studying and use your English as often as you can.

## WHY EXACTLY IS ENGLISH SO NECESSARY TODAY?

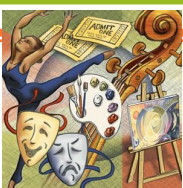

Well, the answer to this big question can come easily from a famous French saying;

*"A man who knows two languages is worth two men."*

It's absolutely true for our job market in the sense that a wider acknowledgment is given to candidates who are fluent both in English and Urdu.

The tend to leave a more confident and competent effect on the dynamics of any business.

Also they are believed to be better communicators with an advantage to doing so in two languages of distinctive important in business world demographics.

English is the language of art, the film industry, music and books.

Knowing English opens up a great range of entertainment possibilities and the ability to immerse yourself in new worlds of cultural understanding.

Through this we become culturally aware and develop skill of communicating efficiently.

## 4 Take advantage of online

**tools:** There are many online tools for helping you to learn English faster. These range from flashcard type programs to phone apps. This would be like a game, you'll enjoy it and learn as well. This is a very effective tool for learning English.

5. **Immerse yourself:** Immersion is one of the best ways to learn a language. This means that you need to study English every day, for at least 3 hours a day. One hour once a week is not enough to learn. If you can spend at least 2-6 hours a day hearing, writing, and speaking English, this will help you the most.

## 5 Things Every Eureka Trainer Has:

### No. 1

## ‘Enthusiasm’

Eureka is home to teaching fanatics who love to teach and transfer this passion to all with whom they come in contact. Enthusiasm is key trait of our trainers as they strive in their classes to develop confidence among our students and guide them to achieve their goals.

Our classes are designed in such a way that there’s no corner seat and no one is ever cornered during and after class. Every student is given considerable attention and time to develop skill. Our trainers work to encourage every student and our classes are student centered.

### No. 2 ‘Ingenuity’

Wit and ingenuity is another quality of our trainers that encourages them to think out of the box and engage students into life time learning experiences. Whether its speech competitions, classroom debates or campus activities students are sure to get a good treat to think and explore their hidden talent and get success.

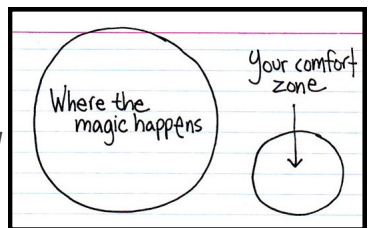

### No. 3 ‘Confidence’

The confidence our trainers exude makes them wonderful at whatever they do. Also they tend to bring their students out of their comfort zones as it is a fact that;

***“Learning takes place at the edge and precipice of our comfort zone.”***

And because our trainers are confident people they continuously expand their comfort zone and get the students to experience success outside their comfort zone.

a comfort zone  
is a beautiful place,  
but **nothing**  
ever grows there.

### No. 4 ‘Flexible’

We understand that every learner has his own pace of learning and so our trainers execute their teaching acumen and work with flexibility to get maximum result. We encourage students to use e-learning content anytime they find feasible and participate proactively in the class to instigate learning potential and yield more benefits from class.

### No. 5 ‘Patience’

Good trainers are patient and they wait positively for the time when their students would take their first flight to be independent fluent speakers. They nurture good communicators and they never give up on their students. That’s exactly what we do because we know you can learn and speak English.
